

Thornsett Properties

1 May 2008

Reference: Paul Jacobs & Swelldweller

Paul contacted our company in October 2007 and introduced himself and the new website Swelldweller. We sent him a spreadsheet with all our properties and he very kindly put them on the website and updated them on a regular basis.

Paul maintained contact during the letting period and made sure that the listings were up to date.

We have received several enquiries from the website and am sure that they have lead to some lettings for 2008 – 2009. This year Swelldweller has performed better than its longer established rival websites.

I would like to take this opportunity to thank Paul for all his hard work and look forward to advertising again next year.
